Offer Price: Rs. 225,000

Original Price: Rs. 245,000

Attributes

Product Description

ANTIGRAVITY A1 8K 360 Drone (Standard Bundle)

8K 360° Capture, Immersive FPV & Motion Control

The **ANTIGRAVITY A1 8K 360 Drone** is a next-generation consumer drone designed for immersive aerial storytelling. Featuring a **dual-lens 8K 360° camera**, it captures everything around you, allowing you to reframe shots freely in post-production with the drone completely invisible in the final footage.
Paired with **Vision Goggles** and a **Grip Motion Controller**, the A1 delivers an intuitive, first-person flying experience where movement feels natural and cinematic. Lightweight and portable, it combines creative freedom, advanced stabilization, and smart safety features—making it ideal for creators, travelers, and FPV enthusia.

Key Features

Feature	Details
Camera	Dual-lens 8K 360° camera for immersive photo & video capture
Video	8K 360° recording; reframe to standard, vertical, or cinematic formats
FPV Experience	Real-time 360° view with Vision Goggles; head-tracking support
Controls	Grip Motion Controller with intuitive “point-to-fly” navigation
Stabilization	Advanced electronic stabilization for smooth cinematic footage
Flight Time	Up to ~24–39 minutes (battery-dependent)
Weight	Approx. 249g (with standard battery)
Safety Features	GPS positioning, obstacle awareness, Return-to-Home
Connectivity	High-speed wireless transmission between drone, goggles & controller
Software	Antigravity app for editing, reframing & AI-assisted highlights
Design	Foldable, compact, travel-friendly drone body
