Product Description
DJI Avata 2 Fly Smart Combo

Immersive FPV with Goggles & RC Motion 3 | 4K Ultra-Wide Video | Integrated Prop Guards | O4 Video Transmission

Get true cinewhoop freedom straight out of the box. Avata 2 pairs an ultra-agile ducted-prop drone with FPV goggles and the RC Motion 3 for intuitive, one-hand flight—tilt, point, and go. Capture buttery-smooth, ultra-wide 4K footage on a large 1/1.3″ sensor with RockSteady/HorizonSteady stabilization and a 155° field of view that pulls you into the scene. O4 transmission delivers a crisp, low-latency feed to the goggles, while Emergency Brake, RTH, and built-in prop guards keep flights beginner-friendly indoors or outside. With smart features like Turtle Mode and easy post-share through the app, it’s the most accessible way to fly FPV like a pro.

Key Features

Feature	Details
Camera	1/1.3″ CMOS, 4K up to 60fps, ultra-wide 155° FOV, 10-bit profiles, EIS (RockSteady/HorizonSteady)
Flight Feel	Ducted cinewhoop design for close-proximity flying; agile and confidence-inspiring
Controls	RC Motion 3 for natural, point-and-go control; on-trigger mode switch & brake
Goggles	Immersive FPV goggles included for a sharp, low-latency live view
Transmission	DJI O4 video link for long-range, stable HD feed
Safety	Emergency Brake & Hover, RTH, integrated prop guards, Turtle Mode
Flight Time	Long endurance per battery; optimized for multiple indoor/outdoor sessions
Use Cases	Dynamic indoor fly-throughs, action follow, travel reels, creative FPV shots
