Product Description
DJI Neo 2 (Drone Only)

4K/60 Video | Omnidirectional Obstacle Sensing | 151 g Ultra-Light | ~19-min Max Flight | Return-to-Palm & Gesture Control

Pocketable yet powerful, DJI Neo 2 captures smooth, cinematic 4K footage with intuitive safety features and palm-first handling. Weighing about 151 g, it launches and lands from your hand, flies safely indoors or outside with full-coverage guards, and returns to your palm with a tap. Intelligent modes like ActiveTrack, SelfieShot, MasterShots, and classic QuickShots make creative clips effortless, while gesture and voice controls keep you hands-free. “Drone Only” is perfect if you already own a compatible remote or prefer phone control—add batteries and accessories later as you grow. Travel-ready, beginner-friendly, and seriously fun to fly.

Key Features

Feature	Details
Camera	12 MP 1/2″ CMOS sensor, 4K/60fps video, 4K/100fps slow-mo, 2.7K vertical video
Stabilization	2-axis mechanical gimbal with advanced EIS
