Product Description

Product Description

The **Redmi Note 15 4G (8GB/256GB)** is a stylish and performance-focused smartphone that combines a premium curved AMOLED display, powerful camera system, and long-lasting battery life. Featuring a 6.77-inch FHD+ Curved AMOLED display with a 120Hz refresh rate, the device delivers vibrant colors, deep contrast, and smooth scrolling for an immersive viewing experience.

Powered by the MediaTek Helio G100-Ultra processor, built on an efficient 6nm architecture, the Redmi Note 15 4G provides responsive performance for multitasking, entertainment, and everyday productivity. Paired with 8GB RAM and 256GB storage, it offers smooth operation and ample space for apps, photos, and videos.

Photography is a key highlight, thanks to the 108MP main camera that captures highly detailed images, complemented by a 2MP depth sensor for enhanced portrait shots. On the front, a 20MP selfie camera delivers clear and vibrant selfies and high-quality

video calls.

The smartphone is equipped with a massive 6000mAh battery, ensuring extended usage throughout the day. It supports 33W fast charging for quick recharging and 18W reverse charging, allowing the phone to charge compatible accessories and devices.

Additional features include an in-display fingerprint sensor, IP64 dust and splash resistance, and a premium curved design that enhances both aesthetics and comfort. The Redmi Note 15 4G is an excellent choice for users seeking a premium smartphone experience at an affordable price.
