Product Description

Product Description

The **Redmi Note 15 5G (12GB/512GB)** is a premium mid-range smartphone that combines flagship-inspired design, powerful performance, advanced cameras, and next-generation 5G connectivity. It features a stunning 6.77-inch FHD+ Curved AMOLED display with a 120Hz refresh rate, delivering vibrant visuals, deep contrast, and ultra-smooth scrolling for gaming, entertainment, and everyday use.

Powered by the efficient Qualcomm Snapdragon 6 Gen 3 processor, built on an advanced 4nm process, the Redmi Note 15 5G provides excellent performance, improved power efficiency, and seamless multitasking. With 12GB RAM and 512GB internal storage, users get ample memory and storage for apps, photos, videos, and games.

The smartphone is equipped with a versatile camera setup featuring a 108MP main camera with Optical Image Stabilization (OIS) for sharp and stable photography, alongside an 8MP ultra-wide camera for capturing wider scenes. On the front, the

20MP selfie camera delivers detailed selfies and high-quality video calls.

A large 5520mAh battery keeps the device running throughout the day, while 45W fast charging ensures quick power replenishment. The phone also supports 18W reverse charging, allowing it to charge compatible accessories and devices.

Additional premium features include 5G connectivity, IP68 dust and water resistance, an in-display fingerprint sensor, and a sleek curved design that enhances both appearance and comfort. The Redmi Note 15 5G is an excellent choice for users seeking a feature-rich smartphone with premium specifications and reliable performance.
