Product Description

Product Description

DJI Mic 3 Wireless Microphone System

The **DJI Mic 3** is a professional wireless microphone system built for creators, filmmakers, vloggers, interviewers, and live streamers. Featuring crystal-clear **48kHz / 32-bit Float recording**, Wi-Fi 6 and Bluetooth 5.4 connectivity, and an impressive **400m wireless transmission range**, it delivers exceptional audio quality in any recording environment.

The lightweight transmitter offers up to **7 hours of battery life**, while the portable charging case extends your recording sessions with multiple recharges. Advanced features such as **130dB Max SPL**, **72dB Signal-to-Noise Ratio**, **Omnidirectional audio pickup**, and **built-in timecode support** make the DJI Mic 3 an ideal choice for professional video production.
